Education

Brigham Young University *Bachelor of Science* *Fall 2011–Fall 2018 (projected)*

I'm a senior pursuing a degree in Computer Science. I'm currently studying algorithms, user experience design, and software development. Major GPA 3.34/4.

Experience

Prendus.com *Full Stack Developer* *August 2016–Present*

I work with a small team of developers on the launch of an online quiz application with user analytics using Polymer and Firebase.

FamilySearch *Web Development Intern* *April 2016–August 2016*

I developed content as part of the Ask/Help team, which creates and maintains resources for patrons to learn how to use the site. I rewrote two Angular apps in Polymer, refactored several pages to use modern CSS and official brand identity, and removed thousands of lines of legacy code.

BYU Harold B. Lee Library *Software Instructor* *March 2015–April 2016*

I developed course material and trained clients to use program suites such as Adobe Creative Cloud and Microsoft Office several times a week. I rebranded and redesigned the team wiki. I also helped walk-in clients resolve software-related issues.

Skills

Language	HTML/CSS	JavaScript	C/C++	Lisp	Java/C#	Python	Spanish	Portuguese
Skill (10 highest)	10	8	6	4	6	4	10	6
Program	Photoshop	InDesign	Illustrator	Muse	Excel			
Skill (10 highest)	10	6	7	5	7			

Activities

The Church of Jesus Christ of Latter-day Saints *Full-time missionary* *2012–2014*

I volunteered to serve and teach the people of Córdoba, Argentina. I learned the Spanish language and communicated in it daily. I led a group of six missionaries and trained them in weekly meetings. I developed social skills, organized Church events, resolved concerns and conflicts with Church members, missionaries, and others in work days averaging 10-12 hours (including weekends).

Boy Scouts of America *Eagle Scout Award* *2011*

After participating in the Scouting program for several years, I culminated my experience by leading a 300+ hour project involving over 25 volunteers.
