## Education

**BS: Computer Science** *Brigham Young University* *September 2011–April 2018*

- Interested in and studied UX design and web/software development
  - Participated in CS clubs and coding events
  - Major GPA: 3.43
- 

## Experience

**Full Stack Developer** *Prendus.com (startup)* *August 2016–Present*

- Took the lead in UX and visual design
- Designed and implemented features like a quiz creation GUI in Polymer
- Brought implementation perspective to design and business decisions

**Web Development Intern** *FamilySearch* *April 2016–August 2016*

- Developed resources to help visitors learn how to use the site
- Rewrote two Angular apps in Polymer to improve speed
- Refactored several pages to match site identity and style

**Software Instructor** *BYU Harold B. Lee Library* *March 2015–April 2016*

- Developed course material and trained clients to use Adobe CC and Microsoft Office
  - Rebranded and redesigned team wiki
  - Helped walk-in clients with software problems
- 

## Skills

**Coding Languages/Libraries:** HTML, CSS, ES6, TypeScript, Polymer, Java

**Natural Languages:** Spanish (fluent), Portuguese (conversational)

**Tools:** Git, Photoshop, Atom, Chrome (dev tools), Mac OS

---

## Activities

**Full-time volunteer** *The Church of Jesus Christ of Latter-day Saints* *2012–2014*

- Led a group of six missionaries and trained them in weekly meetings
- Organized and directed church events
- Resolved concerns and conflicts with church members
